

ALLIGATOR SHEARS

MODEL 10-27

PERFORMANCE DATA

- Power3 HP
- Speed30 strokes/min
- Blade Length10"
- Top BladeStraight
- Bottom BladeNotched
- Opening Size3 1/2" x 10"
- Shearing Capacity27 Ton
- Hydraulic Oil Capacity7 Gallons
- Stock Feed Height44"

CUTTING CAPACITIES

- 3/4" Square Mild Steel Bar
- 3/4" Round Mild Steel Bar
- 1/4" x 7" Flat Mild Steel Bar

STANDARD ELECTRICAL OPTIONS

- 1-Phase - 220 volt - 60 Hz - 17 Amps
- 3-Phase - 240 volt - 60 Hz - 9.6 Amps
- 3-Phase - 480 volt - 60 Hz - 4.8 amps

CONSTRUCTION FEATURES

- Fork Pockets for Ease of Mobility
- Foot Pedal Control
- Right or Left Hand Feed
- Adjustable Safety Hold Down Device
- Assembled in Gold Hill, Oregon
- Full one year warranty

10-27 SHEAR

Sweed's Model 10-27 Mini Shear is an easy to operate and highly portable machine that can be operated from all angles. Despite its small stature, the 10-27 Mini Shear offers powerful and reliable performance. Designed to fulfill the need for a portable trimming and clearing shear, the Mini Shear can be used for trimming fittings off copper tubing, cutting reinforcing steel to length and cutting production rejects. This unit has a shearing capacity of 27 tons and a 10" blade length.

Sweed's alligator shears operate using a variable speed/pressure pump, which allows for fast cycle times while maintaining high cutting forces for tough scrap material. The Model 10-27 features a remote foot control unit and incorporate a safety interlock, which opens the jaw at any point in the cycle immediately when the foot is removed from the pedal. Fork pockets are mounted at the base of each shear for ease of mobility, reducing strain on the operator and maximizing production.
